

Solvent-Less Polyurethane Laminating Adhesive
for Flexible Packaging

PERSIACHASB

Product	Performance	Mix Ratio	Application Temperature	Initial Viscosity	Pot Life	Lamination Speed	Slit Time	Room Temperature Curing
lamtec SL 311A/210B	GP-MP	100-65	≈ 30 °C	Low	30 min	■ ■	12-24 h	■ ■
lamtec SL 110A/210B	MP-HP	100-75	30-40 °C	Low	40 min	■ ■ ■	8-24 h	■ ■ ■
lamtec SL 130A/210B	MP-HP	100-70	30-40 °C	Normal	40 min	■ ■ ■	8-24 h	■ ■ ■

The Solvent free Adhesive, as green-friendly product, is especially designed to improve operational safety and provide lower costs at faster machine speeds. Persia Chasb supplies two-component solvent-less Adhesives for various types of flexible packaging.

☰ QUALITY CONTROL:

Persia Chasb ensures that raw materials used in production meet high quality standards, as do the final products by the modern and advanced laboratory facilities. The QC department keeps samples of all products that sent to the customers as archived.

☰ R&D and TECHNICAL SUPPORT:

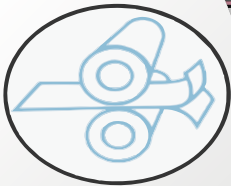

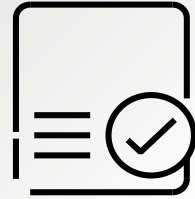

Persia Chasb specialists aim to offer creative solutions based on their expertise, our main priority is to provide all technical and consulting services in the field of packaging in order to establish reliable communication with our customers.

- Fast machine speeds up to 500 (m/min), high productivity
- Long pot life
- Easy clean formula
- Low initial viscosity & low operating temperature

- Excellent leveling and coverage
- High transparency
- High bonding strength
- Short slit time at room temperature

- Applicable for various types of laminate structures (2,3 ply Lamination)
- Easy to use in all types of non-solvent lamination machines
- Excellent ink compatibility
- Low total lamination cost

- Migration compliance certificate
- Excellent thermal and chemical resistance
- Complete curing after 7 days

PERSIA CHASB is your most reliable partner for innovative lamination adhesive solutions
